Table of contents

- 1. Introducción
- 2. Ámbito de trabajo
- 3. Definición del escenario de aplicación
- 4. Routing multicamino con balanceador de carga
- 5. Implementación
- 6. Conclusiones y líneas futuras

- 1. COMPROBAR QUE FUNCIONA BIEN CON UNA SEGUNDA PANTALLA, QUE SE MUESTRAN LAS NOTAS EN UNA Y LA PRESENTACIÓN EN OTRA.
- 2. COMPROBARLO CON LAS PANTALLAS DE LA PRESENTACIÓN (MI ORDE NO TIENE VGA)

Introducción

Motivación y objetivos I

Las redes definidas por software (SDN) surgen a principios de 2010 por necesidad:

 La mayoría de las redes tradicionales fueron diseñadas para aplicaciones cliente-servidor que se ejecutan en una infraestructura no virtualizada.

SDN se ha establecido en la adultez temprana como un producto conocido.

Es una realidad que muchas de las empresas y proveedores de servicios de todo el mundo ya han adoptado.

- 1. SDN ha crecido más allá de su adolescencia y euforia prematura...
- 2. No es una próxima novedad en el horizonte de la creación de redes...

Motivación y objetivos II

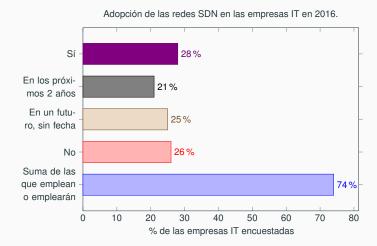

METROPOLIS *Rohit Mehra* y *Brad Casemore* en su previsión sobre SDN publicada en 2016:

"Virtualization, cloud, mobility, and now the Internet of Things (IoT) have exposed the limitations of traditional network architectures and operational models"

 VER SI AÑADO ESTA DIAPO O NO, DECIDIRLO CUANDO TENGA TODAS LAS DIAPOS HECHAS, PARA VER SI SON DEMASIADAS. OCUPARÍA 15 SEGUNDOS EXPLICAR ESTA DIAPO, POR TIEMPO NO HABRÍA PROBLEMA

Adopción de las redes SDN

Fuente: Channel Insider Networking - Michael Vizard

4/24

- 1. Debido a la creciente demanda en las redes, en estos años se ha visto una evolución en el mercado de redes definidas por software.
- 2. Es por esto y por el TFG DE RUBEN que surge el proyecto.

Ámbito de trabajo

Definición del escenario de

aplicación

Routing multicamino con

balanceador de carga

Implementación

Conclusiones y líneas futuras

Metropolis

The **METROPOLIS** theme is a Beamer theme with minimal visual noise inspired by the HSRM Beamer Theme by Benjamin Weiss.

Enable the theme by loading

```
\documentclass{beamer}
\usetheme{metropolis}
```

Note, that you have to have Mozilla's *Fira Sans* font and XeTeX installed to enjoy this wonderful typography.

Sections

Sections group slides of the same topic

\section{Elements}

for which **METROPOLIS** provides a nice progress indicator ...

Metropolis title formats

METROPOLIS supports 4 different title formats:

- Regular
- SMALL CAPS
- ALL SMALL CAPS
- ALL CAPS

They can either be set at once for every title type or individually.

SMALL CAPS

This frame uses the smallcaps title format.

Potential Problems

Be aware that not every font supports small caps. If for example you typeset your presentation with pdfTeX and the Computer Modern Sans Serif font, every text in small caps will be typeset with the Computer Modern Serif font instead.

ALL SMALL CAPS

This frame uses the allsmallcaps title format.

Potential problems

As this title format also uses small caps you face the same problems as with the smallcaps title format. Additionally this format can cause some other problems. Please refer to the documentation if you consider using it.

As a rule of thumb: just use it for plaintext-only titles.

ALL CAPS

This frame uses the allcaps title format.

Potential Problems

This title format is not as problematic as the allsmallcaps format, but basically suffers from the same deficiencies. So please have a look at the documentation if you want to use it.

Typography

The theme provides sensible defaults to \emph{emphasize} text, \alert{accent} parts or show \textbf{bold} results.

becomes

The theme provides sensible defaults to *emphasize* text, accent parts or show **bold** results.

Font feature test

- Regular
- Italic
- SMALL CAPS
- Bold
- Bold Italic
- BOLD SMALL CAPS
- Monospace
- Monospace Italic
- Monospace Bold
- Monospace Bold Italic

Block content.

Example

Block content.

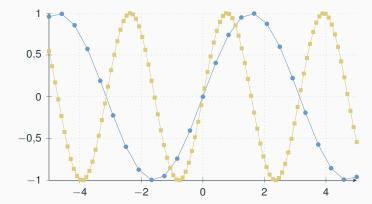

Math

$$e = \lim_{n \to \infty} \left(1 + \frac{1}{n} \right)^n$$

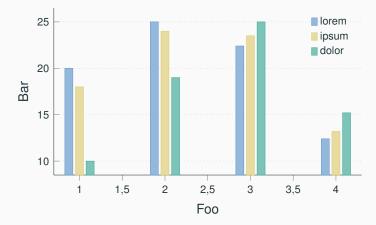

Line plots

Bar charts

Quotes

Veni, Vidi, Vici

Frame footer

METROPOLIS defines a custom beamer template to add a text to the footer. It can be set via

\setbeamertemplate{frame footer}{My custom footer}

The theme *itself* is licensed under a Creative Commons Attribution-ShareAlike 4.0 International License.

Questions?

Backup slides

Sometimes, it is useful to add slides at the end of your presentation to refer to during audience questions.

The best way to do this is to include the appendixnumberbeamer package in your preamble and call \appendix before your backup slides.

METROPOLIS will automatically turn off slide numbering and progress bars for slides in the appendix.
